- Depending on individual vehicle differences, slight gaps may occur.
- Compatible with Sports / Willys / Sahara / Rubicon / Altitude.
- ※Not compatible with soft-top vehicles.

## 1 Safety Precautions

### Please read carefully before installation and use

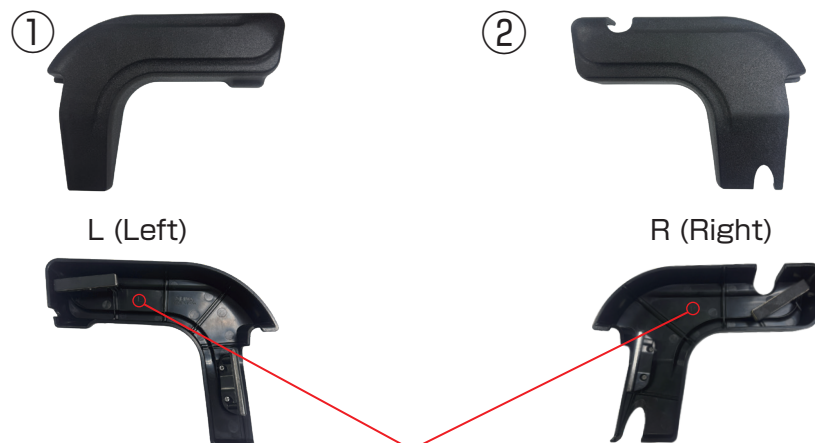

- Warning**
- Ensure this product is installed correctly, and confirm that it is securely attached before driving. Using the product with improper installation may cause it to detach and result in an accident.
  - Install the product in a manner that does not interfere with driving. Failure to do so may cause traffic accidents or damage to the product. The company assumes no responsibility for any damage to the vehicle's interior caused by the product detaching.
- Caution**
- This product is a protective cover for the rear window defogger. Do not use it for any purpose other than its intended use.●This product uses strong magnets. Please handle installation and removal with care, as improper handling may cause injury or damage to your vehicle.●After removing the product, slight discoloration or marks from sun exposure may remain on the installation area. Please be aware of this in advance.
  - Due to the effects of ultraviolet rays, discoloration may occur even after a short period of use.●If the product shows any signs of damage, deterioration, or deformation, discontinue use immediately.●Keep this product away from watches, magnetic cards, tickets, and other magnetic storage media, as it may cause malfunction or data loss.
  - Please read and follow all warnings and cautions above. The manufacturer assumes no responsibility or liability for any accidents, malfunctions, or damage caused by improper use, disassembly, or modification (including painting or decoration after purchase).

## Check Package Contents

### Product Components and Names

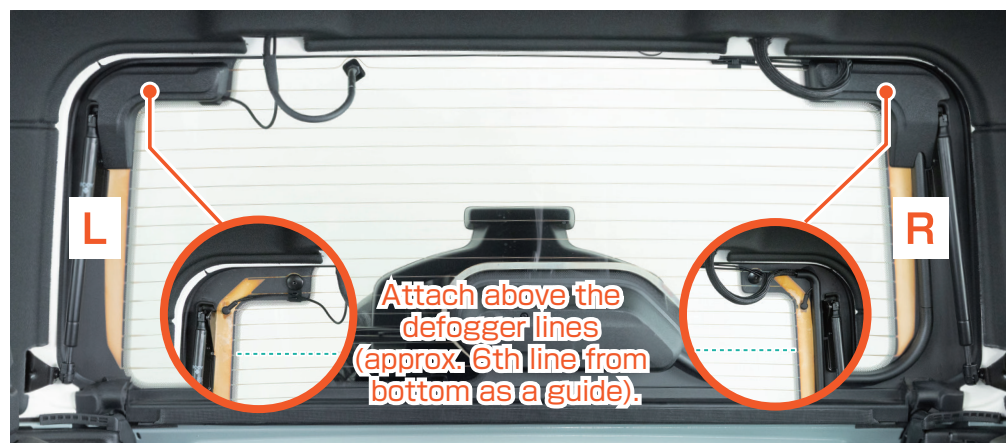

- After opening the package, please refer to the following and check the contents.

①	Rear Defogger Cover L (Left Side) × 1
②	Rear Defogger Cover R (Right Side) × 1

(Check "L" and "R" markings on the back side)

## 2 Installation Overview

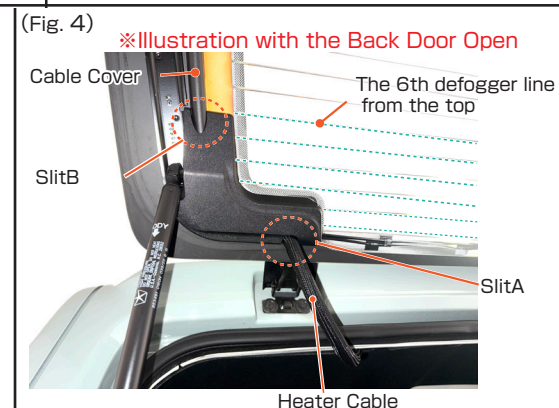

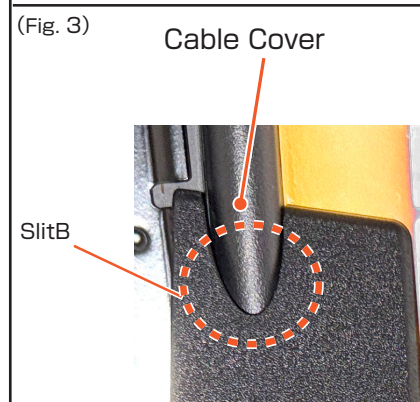

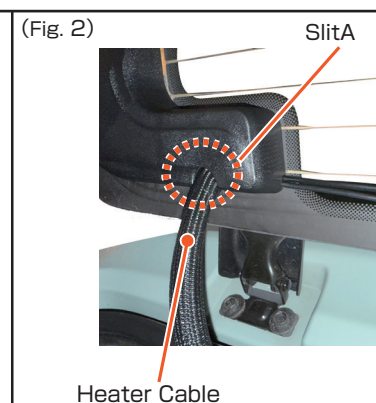

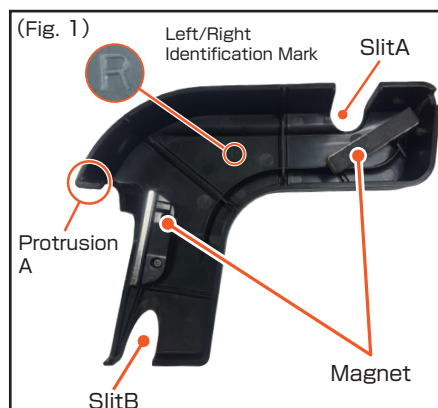

## 3 Installation Method

### Preparation

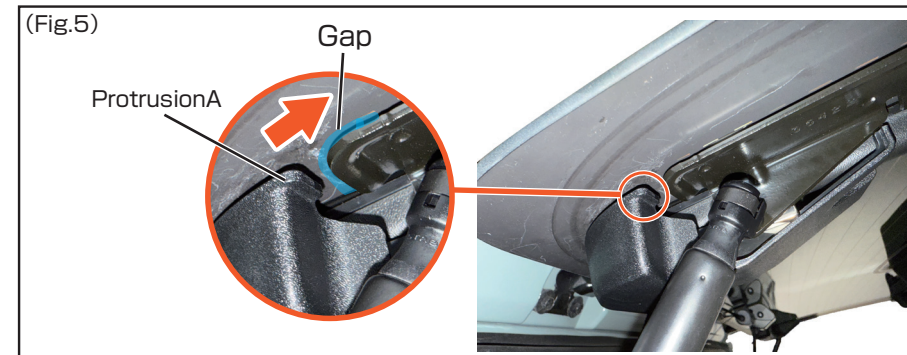

- ※Before installing this product, remove any dirt, dust, and oil from the installation area.
- ※This product uses strong magnets. Handle it carefully to avoid injury, such as pinching your fingers.
- ※It is recommended to perform the installation after raising the vehicle's rear window.

### Rear Defogger Cover R (Right Side): Installation Method

- ①Check the rear defogger cover R (right side). The side marked "R" on the inside of the product is for the right side when viewed from inside the vehicle. (Fig. 1)
  - ②Position the heater cable into Slit A (Fig. 2), then align Slit B with the cable cover attached to the glass and place it over it (Fig. 3). Align the product so that the bottom of the unit is positioned at the sixth heating wire from the top, then install it. (Fig. 4)
- ※Be careful not to pinch any existing cables during installation.
  - ※When attaching the magnetic section to the vehicle body, move it slowly and carefully toward the surface, as the strong magnetic force may cause it to snap into place suddenly.

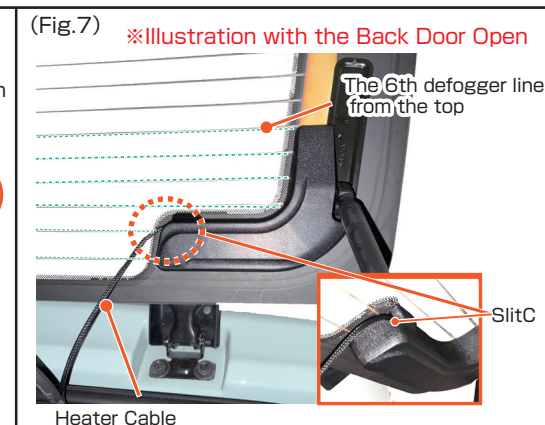

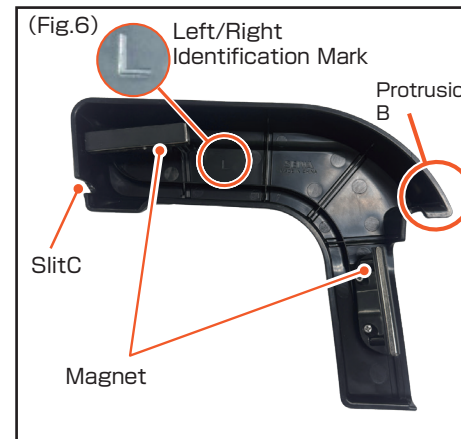

- ③Insert Protrusion A at the tip of the main unit into the gap in the vehicle body. Adjust the position so that it fits the shape of the vehicle. (Fig. 5)
- ※Slowly open and close the rear window to ensure that there is no interference.

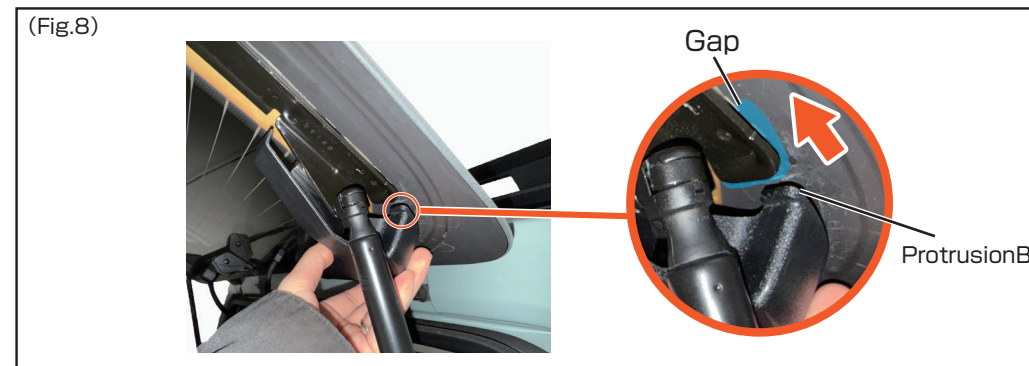

### Rear Defogger Cover L (Left Side): Installation Method

- ①Check the rear defogger cover L (left side).
  - ※The side marked "L" on the inside of the product is for the left side when viewed from inside the vehicle. (Fig. 6)
  - ②Position the heater cable in Slit C, then align and install the product so that the bottom of the unit is at the 6th heating wire from the top. (Fig. 7)
- ※Be careful not to pinch any existing cables during installation.
  - ※When attaching the magnetic section to the vehicle body, move it slowly and carefully toward the surface, as the strong magnetic force may cause it to snap into place suddenly.

- ③Insert Protrusion B at the tip of the main unit into the gap in the vehicle body. Adjust the position so that it fits the shape of the vehicle. (Fig. 8)
- ※Slowly open and close the rear window to ensure that there is no interference.
